SUMMARY

Hello! Im Ahmet and Im living in Turkey. Let me briefly talk about myself, I love learning new technologies, languages and frameworks. I love programming from my childhood. I speak English very well like reading developer companies or open-source communities (Apache,Oracle etc.) features, new releases, version updates in short, their documentations. My Applications developed through Linux, therefore i have essential experience with Linux (Unix,bash commands) Most of my positions utilized agile-like development processes using JIRA.
